

## **Hindalco - An Overview**

**Hindalco Industries Limited** is the flagship company of the Aditya Birla Group. Among India's largest business houses, the Aditya Birla Group has been operating in India for over 5 decades with global experience spanning nearly 30 years.

Hindalco Industries Limited is a non-ferrous metals powerhouse, in the country. Its operations are organized into two Strategic Business Units **Aluminium and Copper**

Incorporated in 1958, Hindalco commenced production of Aluminium in 1962 at Renukoot Uttar Pradesh. With an initial capacity of 20,000 MTPA of aluminium metal, it has grown continuously and at present has a primary aluminium smelting capacity of **342,000 MTPA**.

Accounting for 40% of India's primary aluminium production, Hindalco enjoys a leadership position in India for aluminium and downstream products. Furthermore, synergies of operations with its wholly owned subsidiary Indal have enhanced the Company's share in value-added segments, where the Hindalco-Indal combination accounts for over 50% of the market share.

Hindalco's **integrated operations** include a power generation capacity of 779 MW and a 660,000 MTPA Alumina Refinery. Hindalco's semi-fabrication facilities comprise **Rolled Products, Redraw Rods, Extrusions, Foils & Wheels**. Wheels & Foils manufacturing unit is located at Silvassa.

The company's product range includes Primary Aluminium Ingots, Billets, Rolling Slabs, Redraw Rods, Alloy Wire Rods, Sheet Products, Extruded Profiles, Foils and Alloy Wheels.
